Location: Gandhinagar, Gujarat, India

Career Objective

Motivated Computer Engineering student with a strong foundation in Python, C, Java, and SQL. Passionate about AI/ML, software development, and automation. Seeking opportunities in software development, data science, or backend engineering to apply problem-solving, analytical, and teamwork skills in real-world projects.

Education

Pandit Deendayal Energy University (PDEU), Gandhinagar

B.Tech in Computer Engineering | 2024 - Present | CGPA: 8.67

Relevant Coursework: Data Structures, Algorithms, DBMS, Operating Systems, AI/ML

Technical Skills

- Programming: Python, C, Java, SQL, HTML, CSS, JavaScript, PHP
- Frameworks & Tools: Flask (basic), Scikit-learn, NumPy, Pandas
- Databases: MySQL
- Other: Graphic Designing, Problem Solving, Communication

Experience

Python Developer Intern - Codsoft (Jan 2025 - Feb 2025)

- Developed Python applications for automation and data analysis.
- Utilized Pandas and NumPy to optimize workflows.
- Enhanced efficiency of repetitive processes through scripting.

Projects

- AI/ML Mini Projects - Built predictive models using Scikit-learn and data preprocessing.
- Coastal Threat Detection Website - Uses geolocation to show NDRF officer locations and safe zones.
- GreenPin Web Portal - Aggregates trending news articles from multiple sources with category filters.

Hackathons & Competitions

- AI Agent Hackathon - Organised by Product Space (Unstop Platform).
- Hackout'25 - Organised by DA-IICT Annual Festival Committee.

Certifications & Workshops

- AI/ML Workshop - Learned model training, dataset handling, and evaluation (2-Day Session).
- Launched – Data Science Course
- Web Development Workshop - HTML, CSS, and JS Basics.

Languages

English (Proficient), Hindi (Fluent), Gujarati (Native)

Hobbies & Interests

Gaming | Cricket | Comedy | Social Volunteering
